

# LULU MUTULI

## UI/UX Developer

**Phone:** +65-8071-5704 | **E-mail:** [luluhmutuli@gmail.com](mailto:luluhmutuli@gmail.com) | **Address:** Singapore

**LinkedIn:** <http://linkedin.com/in/lulumutuli> | **Website:** <http://lulumuts.github.io/Lulumutuli>

### Professional Summary

With over 5 years of experience in UI/UX design and frontend development, I am proficient in Figma, Vue.js, React and have reduced development time by 30% by building a reusable component library in 6 months. I have accelerated design iterations by 20% through a design system built on top of Vuetify in a complex enterprise application.

### Skills

User Interface Design • UX Design • Human-Centred Design • Frontend Development • ES6 JavaScript • Design Systems • HTML • CSS • SCSS • RESTful APIs • Design Validation • Unit Testing • E2E Testing • Vue.js • React.js • Visual Design • Colour Theory • Atomic Design • Information Architecture • Agile

### Tools

Remote Collaboration Tools (Google Suite, Slack, Zoom, Microsoft Teams) • Figma • Adobe Illustrator • Photoshop • InDesign • Storybook • Vuetify • Chromatic • Vuex • Jest • Cypress • Axios • Bootstrap • Tailwind CSS • Jira • Trello • Confluence • Git

### Professional Experience

#### UI/UX Designer

Regulation • Remote

April 2023 – August 2024

- Increased stakeholder engagement by 40% with wireframes and prototypes using Figma and Mural in under a year.
- Developed a reusable component library with Vue.js and Storybook, reducing development time by 30%.
- Increased user satisfaction by 25% by conducting thorough user research and designing intuitive interfaces for an enterprise B2B SaaS product.
- Designed a Vuetify-based design system, accelerating design iterations by 20% within 3 months.
- Created high-fidelity mockups that supported product expansion into the US market in 3 week sprint iterations.

## **UI Developer**

Immediate Media • London, England

February 2021 - March 2023

- Improved code consistency by creating 10+ reusable React components, reducing development time by 20%.
- Achieved 100% test coverage for 50+ brands, enhancing product stability.
- Boosted subscriber engagement by 10% within 2 week sprints through paywall integrations using React and WordPress plugins.

## **Frontend UI Developer**

Qhala • Nairobi, Kenya

March - November 2020

- Developed frontend features using Vue.js and secure CRUD functionality for Jukua, enhancing scalability and performance following design specifications in a 6 month period.
- Enhanced debugging efficiency with E2E tests, reducing debugging time by 20% within 8 weeks development period.

## **Frontend Web Developer**

BeMyGuest • Singapore

June 2019 - March 2020

- Implemented E2E tests that increased code coverage by 30%, enhancing application stability.
- Led the development of a company-wide design system, streamlining design-to-development handovers by 20%.

## **Education**

Bachelor of Fine Arts in Fashion Design  
Savannah College of Art and Design  
Savannah, Georgia, USA

Full Stack Web Development Certification  
Moringa School  
Nairobi, Kenya • March 2020 - August 2020
